

BANNER RIDGE YURT WINTER GUIDE 2012

The Banner Ridge yurt is ideally located for Nordic skiers and snowshoers. Over 20 miles of groomed and 50 miles of marked ski trails are 200 yards from the front door. The yurt is located just off a high ridge in a protected north-facing bowl. Looking north and down over 3000 feet in elevation you can see the South Fork of the Payette River, Bear Valley, and Scott Mountain. At 6500 feet the view of the Sawtooth Mountains is spectacular. The snow is usually powder and very deep. This yurt is a telemarker and snowboarder heaven with its long, open slopes. Thousands of feet of untracked powder are available 100 feet away. Snow is usually available from early December to mid-April.

PLEASE READ THE WINTER YURT MANUAL FOR MORE DETAILS AND HOW TO GET THE YURT CODE

How to get the code:

By email: judy.ditto@idpr.idaho.gov and the Yurt Coordinator will email the code back to you.

Difficulty:

Intermediate. The difficulty of touring trails can increase in poor snow conditions and weather. The route to Banner Ridge yurt includes a long steep section at the beginning and may require you to remove your skis and walk up. Climbing skins are recommended for those with heavy packs. Individuals should be thoroughly prepared and travel with someone who has been to the yurt and can readily find it. The Elkhorn Loop trail is generally groomed Thursday or Friday from December 1 to March 15. You should not count on the trail being groomed, but a freshly groomed trail will substantially reduce the amount of energy necessary to get to the yurt.

How to Get to the Yurt:

The trails are marked with blue or yellow diamond shapes, called blazes, attached to trees. The recommended approach is to take the Elkhorn Loop trail clockwise to the yurt turn-off. Go past the first intersection of the Elkhorn Loop trail, just .2 miles from the parking lot; continue straight up the Elkhorn Loop trail. You will pass the Banner trail intersection and continue up onto the scenic Banner Ridge. After traversing the ridge and where the trail turns south, look for a two-foot yellow diamond sign, then follow yellow blazes on this trail through the saddle and down to the yurt. **You cannot see the yurt from the Elkhorn trail.**

Where to Park:

The Banner Ridge Park N' Ski parking lot is about 23.5 miles north of Idaho City on Highway 21, just past mile marker 61. An Idaho Park N' Ski permit is required to park here Nov 15th to Apr 30th. Please park vehicles close together on the high end of the parking lot next to the highway. The Department of Transportation snowplow operators become frustrated when they cannot plow a lot because cars are parked in the middle. You should also **bring a shovel** because you might have to dig your car out or in. Do not park on Highway 21. You can be fined for parking on the highway or not displaying a Park N' Ski Pass.

Elevation Change and Distance:

About 750 feet climbing over 2 miles (one-way) via the Elkhorn Loop trail directly to the top of Banner Ridge. This is the shortest route with one long steep section to climb.

Dogs:

From Dec 1st through April 15th dogs are not allowed at this yurt. They are not allowed on the groomed trails at the Banner Ridge Area Park N' Ski during Dec 1st through April 15th.

Solar Power:

This yurt has a solar unit with four lights. Please do not change the panel location. Use the lights when needed, turn them off when not in use and at the end of your stay.

Wood Pile:

Wood for the stove is located under the deck.

Water:

If you melt snow for water, we recommend boiling it for 10 minutes before using it. There may be water available other than melting snow over the wood stove. The route to the water source is marked with 3"x 3" red, square blazes placed on wood 4"x 4" posts. From the yurt, travel down the drainage about 10 yards and down 50 feet in elevation until you come to a roadbed. Turn right on this road and travel 200 yards. At this point, look downhill about 30 feet to see a 4x4 wooden post sticking out of the snow. Five feet downhill from the base of this pole is a spring that comes out of a white plastic pipe. This spring may or may not be frozen.

Special Equipment Needed:

Several members of the party should carry portable snow shovels. Bring two (2) one-pound propane bottles per each night of your stay; a packet of lantern mantles; a roll of paper towels, and keep a snow shovel in each vehicle. For a list of recommended items for a yurt trip, please read the winter yurt manual.

Avalanche and Whiteout Hazard:

Chances of an avalanche are low as long as Elkhorn Loop trail is used. Avalanches can occur on nearby slopes. The final one-mile to the yurt is on the Banner Ridge, which is a high treeless, exposed ridge. We do not recommend travel to the yurt in high wind and heavy snow conditions, or at night. Whiteouts are common along this section of trail.

Safety: The nearest telephone is in Lowman. For emergencies call Boise County Sheriff:

1-800-479-0911 or in a medical emergency: **1-800-632-8000**. There is cell phone coverage for some cell phone systems at the high point on the Elkhorn trail once you are on top of the Banner Ridge. There is also possible coverage from Beaver Creek Summit on Highway 21. Do not depend on coverage in those areas.

Maps Needed:

Idaho City Area Park N' Ski Location Map, Banner Ridge Winter Trail Route to Banner Ridge Yurt.

(on website)

Other Maps that may be valuable to you.

USFS Forest Road, and USGS 7.5 minute topographic "Lowman."
